NOTE language:en-us

NOTE Confidence: 0.8720666

00:00:05.330 --> 00:00:08.840 OA Shelf Exam is an exam that probably 95%

NOTE Confidence: 0.8720666

00:00:08.840 --> 00:00:11.388 of medical schools use to evaluate students

NOTE Confidence: 0.8720666

00:00:11.388 --> 00:00:14.299 at the end of their clerkship blocks.

NOTE Confidence: 0.8720666

00:00:14.300 --> 00:00:16.598 And these shelf exams are primarily

NOTE Confidence: 0.8720666

00:00:16.598 --> 00:00:18.980 knowledge exams and not scale exams.

NOTE Confidence: 0.8720666

00:00:18.980 --> 00:00:21.360 And we decided that shelf exams were

NOTE Confidence: 0.8720666

00:00:21.360 --> 00:00:23.352 not an appropriate mechanism for

NOTE Confidence: 0.8720666

00:00:23.352 --> 00:00:25.607 learning in our clinical environment.

NOTE Confidence: 0.8720666

00:00:25.610 --> 00:00:28.445 One of the things I think that's

NOTE Confidence: 0.8720666

00:00:28.445 --> 00:00:30.799 very important is the focus on.

NOTE Confidence: 0.8720666

00:00:30.800 --> 00:00:33.096 Students learning what they need to do in

NOTE Confidence: 0.8720666

00:00:33.096 --> 00:00:35.240 developing as physicians in their own pace,

NOTE Confidence: 0.8720666

00:00:35.240 --> 00:00:37.249 not in an atmosphere driven by high

NOTE Confidence: 0.8720666

00:00:37.249 --> 00:00:39.090 stakes exams and tests, by giving
NOTE Confidence: 0.8764561

00:00:39.090 --> 00:00:41.155 exams in the middle of clinical experiences,
NOTE Confidence: 0.8764561

00:00:41.160 --> 00:00:43.064 we actually are taking students away from
NOTE Confidence: 0.8764561

00:00:43.064 --> 00:00:45.300 the care of their patients. Because of
NOTE Confidence: 0.8764561

00:00:45.300 --> 00:00:46.780 that. You get into this
NOTE Confidence: 0.8764561

00:00:46.780 --> 00:00:48.260 philosophy of saying like hey,
NOTE Confidence: 0.8764561

00:00:48.260 --> 00:00:50.844 this seems to be a really common concern
NOTE Confidence: 0.8764561

00:00:50.844 --> 00:00:52.839 among patients and I want to learn
NOTE Confidence: 0.8764561

00:00:52.839 --> 00:00:54.779 more about it as opposed to saying,
NOTE Confidence: 0.8764561

00:00:54.780 --> 00:00:56.255 hey, this is something that's
NOTE Confidence: 0.8764561

00:00:56.255 --> 00:00:57.140 impacting my patients,
NOTE Confidence: 0.8764561

00:00:57.140 --> 00:00:59.804 but it doesn't show up on the shelf exam,
NOTE Confidence: 0.8764561

00:00:59.810 --> 00:01:00.990 so I don't care.
NOTE Confidence: 0.86163396

00:01:01.340 --> 00:01:03.370 Right now, that means that we feel
NOTE Confidence: 0.86163396

00:01:03.370 --> 00:01:05.317 OK spending more time in the wards,
NOTE Confidence: 0.86163396

00:01:05.320 --> 00:01:08.160 and we don't feel like we have to rush home

NOTE Confidence: 0.86163396

00:01:08.160 --> 00:01:09.864 and study first thing. But there

NOTE Confidence: 0.86163396

00:01:09.864 --> 00:01:11.000 isn't competition between classmates.

NOTE Confidence: 0.86163396

00:01:11.000 --> 00:01:13.264 When we come back from any clerkship day,

NOTE Confidence: 0.86163396

00:01:13.270 --> 00:01:15.853 we're able to get together and really

NOTE Confidence: 0.86163396

00:01:15.853 --> 00:01:17.897 teach each other clinical pearls

NOTE Confidence: 0.86163396

00:01:17.897 --> 00:01:20.450 and help each other succeed. So

NOTE Confidence: 0.86771077

00:01:20.450 --> 00:01:23.586 we decided that we would have a lower

NOTE Confidence: 0.86771077

00:01:23.586 --> 00:01:26.850 stakes exam at the end of every clerkship.

NOTE Confidence: 0.86771077

00:01:26.850 --> 00:01:29.076 These are not anything but pass

NOTE Confidence: 0.86771077

00:01:29.076 --> 00:01:31.030 fail because we're really looking

NOTE Confidence: 0.86771077

00:01:31.030 --> 00:01:33.448 at them to develop them as

NOTE Confidence: 0.86771077

00:01:33.448 --> 00:01:35.250 clinicians interacting with patients

NOTE Confidence: 0.86771077

00:01:35.250 --> 00:01:37.250 and those valuable clerkship years.

NOTE Confidence: 0.86771077

00:01:37.250 --> 00:01:39.662 There are ample abilities to do

NOTE Confidence: 0.86771077

00:01:39.662 --> 00:01:41.774 self-assessment to work with physicians

NOTE Confidence: 0.86771077

00:01:41.774 --> 00:01:44.384 to tackle specifically what your areas

NOTE Confidence: 0.86771077

00:01:44.384 --> 00:01:47.156 of weakness are and encourage people to

NOTE Confidence: 0.86771077

00:01:47.156 --> 00:01:49.621 seek feedback often as we go through.

NOTE Confidence: 0.86771077

00:01:49.621 --> 00:01:51.476 Our life and our training,

NOTE Confidence: 0.86771077

00:01:51.480 --> 00:01:53.268 we're going to need to take

NOTE Confidence: 0.86771077

00:01:53.268 --> 00:01:55.305 ownership of our own learning for

NOTE Confidence: 0.86771077

00:01:55.305 --> 00:01:57.255 ourselves and for our patients.

NOTE Confidence: 0.86771077

00:01:57.260 --> 00:01:58.960 It is something that is

NOTE Confidence: 0.86771077

00:01:58.960 --> 00:02:00.320 more important than grades.
