NOTE duration: "00:01:38.986"

NOTE Confidence: 0.9004412

00:00:03.840 --> 00:00:04.960 Hi. I'm Wayne Zong of

NOTE Confidence: 0.9004412

00:00:04.960 --> 00:00:06.640 PGY three, currently on the

NOTE Confidence: 0.9004412

00:00:06.640 --> 00:00:08.740 emergency room console resident rotation.

NOTE Confidence: 0.9004412

00:00:08.960 --> 00:00:10.320 So in the emergency room,

NOTE Confidence: 0.9004412

00:00:10.320 --> 00:00:11.759 I'm responsible for all of

NOTE Confidence: 0.9004412

00:00:11.759 --> 00:00:13.460 the emergency room stroke codes,

NOTE Confidence: 0.9004412

00:00:13.519 --> 00:00:15.440 also other acute neurological issues

NOTE Confidence: 0.9004412

00:00:15.440 --> 00:00:16.405 such as head leads and

NOTE Confidence: 0.9004412

00:00:16.405 --> 00:00:16.905 seizures.

NOTE Confidence: 0.9332982

00:00:17.364 --> 00:00:18.565 We also answer any of

NOTE Confidence: 0.9332982

00:00:18.565 --> 00:00:19.685 the other consults that come

NOTE Confidence: 0.9332982

00:00:19.685 --> 00:00:21.785 through ranging from numbness, weakness,

NOTE Confidence: 0.9332982

00:00:21.845 --> 00:00:23.625 headache, to serve for GBS,

NOTE Confidence: 0.9332982

00:00:23.685 --> 00:00:25.285 my CPA exam. The rotation

NOTE Confidence: 0.9332982

00:00:25.285 --> 00:00:26.725 is probably the busiest of
NOTE Confidence: 0.9332982

00:00:26.725 --> 00:00:28.345 all of the inpatient rotations
NOTE Confidence: 0.9332982

00:00:28.404 --> 00:00:29.205 that we do, but it's
NOTE Confidence: 0.9332982

00:00:29.205 --> 00:00:30.470 also the most rewarding. We
NOTE Confidence: 0.9332982

00:00:30.470 --> 00:00:31.670 see all the stuff by
NOTE Confidence: 0.9332982

00:00:31.670 --> 00:00:33.190 ourselves and also with help,
NOTE Confidence: 0.9332982

00:00:33.430 --> 00:00:35.110 throughout the day. We see
NOTE Confidence: 0.9332982

00:00:35.110 --> 00:00:36.550 the brand new presentations of
NOTE Confidence: 0.9332982

00:00:36.550 --> 00:00:37.830 x y z, we cleage
NOTE Confidence: 0.9332982

00:00:37.830 --> 00:00:39.350 ourselves, and we staff. So
NOTE Confidence: 0.9332982

00:00:39.350 --> 00:00:40.630 we staff with our general
NOTE Confidence: 0.9332982

00:00:40.630 --> 00:00:42.229 residents, we staff with different
NOTE Confidence: 0.9332982

00:00:42.229 --> 00:00:44.045 attendings. There's always someone to
NOTE Confidence: 0.9332982

00:00:44.045 --> 00:00:45.184 ask questions for.
NOTE Confidence: 0.91083974

00:00:45.725 --> 00:00:47.645 So this rotation timeline wise,
NOTE Confidence: 0.91083974

00:00:47.645 --> 00:00:48.524 you're only going to be

NOTE Confidence: 0.91083974
00:00:48.524 --> 00:00:49.645 doing the PGY two and
NOTE Confidence: 0.91083974
00:00:49.645 --> 00:00:51.405 PGY three. The start of
NOTE Confidence: 0.91083974
00:00:51.405 --> 00:00:52.925 PGY two, they ease you
NOTE Confidence: 0.91083974
00:00:52.925 --> 00:00:54.465 into it with more supervision,
NOTE Confidence: 0.91083974
00:00:54.605 --> 00:00:55.965 you're helped along, and then
NOTE Confidence: 0.91083974
00:00:55.965 --> 00:00:56.925 you see more of the
NOTE Confidence: 0.91083974
00:00:56.925 --> 00:00:58.760 CED rotations along the latter
NOTE Confidence: 0.91083974
00:00:58.760 --> 00:00:59.800 half of your second half
NOTE Confidence: 0.91083974
00:00:59.800 --> 00:01:01.320 year coming into the middle
NOTE Confidence: 0.91083974
00:01:01.320 --> 00:01:02.519 part of the third year
NOTE Confidence: 0.91083974
00:01:02.519 --> 00:01:03.320 and then by the time
NOTE Confidence: 0.91083974
00:01:03.320 --> 00:01:04.280 you're fourth year you're all
NOTE Confidence: 0.91083974
00:01:04.280 --> 00:01:05.479 done, but you'll be actually
NOTE Confidence: 0.91083974
00:01:05.479 --> 00:01:07.020 the one staffing these consults.
NOTE Confidence: 0.9597812
00:01:07.400 --> 00:01:08.840 So junior residents like me
NOTE Confidence: 0.9597812

00:01:08.840 --> 00:01:10.119 will call the senior resident

NOTE Confidence: 0.9597812

00:01:10.119 --> 00:01:11.400 to staff. So the biggest

NOTE Confidence: 0.9597812

00:01:11.400 --> 00:01:13.125 takeaway is that this rotation

NOTE Confidence: 0.9597812

00:01:13.125 --> 00:01:14.244 is where you start to

NOTE Confidence: 0.9597812

00:01:14.244 --> 00:01:15.284 train as a full on

NOTE Confidence: 0.9597812

00:01:15.284 --> 00:01:15.784 neurologist.

NOTE Confidence: 0.94779474

00:01:16.325 --> 00:01:17.524 Since you see everything by

NOTE Confidence: 0.94779474

00:01:17.524 --> 00:01:19.204 yourself, you are triaging it,

NOTE Confidence: 0.94779474

00:01:19.204 --> 00:01:20.405 you are building your own

NOTE Confidence: 0.94779474

00:01:20.405 --> 00:01:22.005 differential, you're learning how to

NOTE Confidence: 0.94779474

00:01:22.005 --> 00:01:23.685 take a good history, learning

NOTE Confidence: 0.94779474

00:01:23.685 --> 00:01:25.204 how to take, not only

NOTE Confidence: 0.94779474

00:01:25.204 --> 00:01:26.725 a full physical exam, but

NOTE Confidence: 0.94779474

00:01:26.725 --> 00:01:28.505 more detailed and focused exam

NOTE Confidence: 0.94779474

00:01:28.590 --> 00:01:29.490 for those specific issues.

NOTE Confidence: 0.9781011

00:01:30.350 --> 00:01:31.310 And as you come out

NOTE Confidence: 0.9781011

00:01:31.310 --> 00:01:32.670 of it, you realize how

NOTE Confidence: 0.9781011

00:01:32.670 --> 00:01:33.549 much you've learned over the

NOTE Confidence: 0.9781011

00:01:33.549 --> 00:01:34.770 last one to two years.
