NOTE duration: "00:02:18.271"

NOTE Confidence: 0.96450925

00:00:03.520 --> 00:00:05.040 Hi. I'm Elizabeth. I'm a

NOTE Confidence: 0.96450925

00:00:05.040 --> 00:00:06.559 PGY four, and I'm currently

NOTE Confidence: 0.96450925

00:00:06.559 --> 00:00:08.340 the general senior on the

NOTE Confidence: 0.96450925

00:00:08.480 --> 00:00:10.639 neurology team. Hi. I'm Ian.

NOTE Confidence: 0.96450925

00:00:10.639 --> 00:00:11.840 I'm a PGY two in

NOTE Confidence: 0.96450925

00:00:11.840 --> 00:00:13.675 the adult neurology program. I'm

NOTE Confidence: 0.96450925

00:00:13.675 --> 00:00:15.275 currently the junior on the

NOTE Confidence: 0.96450925

00:00:15.275 --> 00:00:17.035 general neurology service. So our

NOTE Confidence: 0.96450925

00:00:17.035 --> 00:00:18.635 general neurology service is our

NOTE Confidence: 0.96450925

00:00:18.635 --> 00:00:20.475 primary inpatient service, and we

NOTE Confidence: 0.96450925

00:00:20.475 --> 00:00:21.435 see a range of different

NOTE Confidence: 0.96450925

00:00:21.435 --> 00:00:23.595 neurologic issues, including patients with

NOTE Confidence: 0.96450925

00:00:23.595 --> 00:00:24.735 refractory seizures,

NOTE Confidence: 0.8297412

00:00:25.435 --> 00:00:27.890 patients with autoimmune disorders like

NOTE Confidence: 0.8297412

00:00:27.890 --> 00:00:29.029 MS or Tinnell,
NOTE Confidence: 0.90575296

00:00:29.730 --> 00:00:32.050 patients with neuromuscular disorders including
NOTE Confidence: 0.90575296

00:00:32.050 --> 00:00:32.550 myasthenia,
NOTE Confidence: 0.9359417

00:00:32.930 --> 00:00:34.149 a wide range of things.
NOTE Confidence: 0.94261616

00:00:34.769 --> 00:00:36.610 So my role includes, basically
NOTE Confidence: 0.94261616

00:00:36.610 --> 00:00:38.129 being the primary contact for
NOTE Confidence: 0.94261616

00:00:38.129 --> 00:00:39.729 all the patients on, that
NOTE Confidence: 0.94261616

00:00:39.729 --> 00:00:40.850 I'm covering on the service.
NOTE Confidence: 0.94261616

00:00:40.850 --> 00:00:42.425 So, I get here early
NOTE Confidence: 0.94261616

00:00:42.425 --> 00:00:43.784 to to get sign out
NOTE Confidence: 0.94261616

00:00:43.784 --> 00:00:44.745 from the night team. I
NOTE Confidence: 0.94261616

00:00:44.745 --> 00:00:45.965 pre round on my patients
NOTE Confidence: 0.9934835

00:00:46.345 --> 00:00:47.885 and present them during rounds.
NOTE Confidence: 0.9934835

00:00:48.184 --> 00:00:49.625 I also place orders during
NOTE Confidence: 0.9934835

00:00:49.625 --> 00:00:51.085 the day, talk to families,
NOTE Confidence: 0.9315191

00:00:52.985 --> 00:00:54.665 overall coordinate their care throughout

NOTE Confidence: 0.9315191
00:00:54.665 --> 00:00:56.364 the day. As general,
NOTE Confidence: 0.9547858
00:00:56.745 --> 00:00:58.480 senior, I supervise a team
NOTE Confidence: 0.9547858
00:00:58.480 --> 00:01:00.000 of residents as well as
NOTE Confidence: 0.9547858
00:01:00.000 --> 00:01:01.840 working with our APPs, which
NOTE Confidence: 0.9547858
00:01:01.840 --> 00:01:02.960 are really a core part
NOTE Confidence: 0.9547858
00:01:02.960 --> 00:01:04.240 of our team. We also
NOTE Confidence: 0.9547858
00:01:04.240 --> 00:01:05.920 have medical students that rotate
NOTE Confidence: 0.9547858
00:01:05.920 --> 00:01:07.520 on our service. And an
NOTE Confidence: 0.9547858
00:01:07.520 --> 00:01:08.560 exciting part of the role
NOTE Confidence: 0.9547858
00:01:08.560 --> 00:01:09.520 for me is that I
NOTE Confidence: 0.9547858
00:01:09.520 --> 00:01:11.200 get to really practice thinking
NOTE Confidence: 0.9547858
00:01:11.200 --> 00:01:12.100 like an attending.
NOTE Confidence: 0.93888485
00:01:12.640 --> 00:01:13.725 So I work with an
NOTE Confidence: 0.93888485
00:01:13.805 --> 00:01:15.405 attending who is a great
NOTE Confidence: 0.93888485
00:01:15.405 --> 00:01:17.005 kind of, mentor to ask
NOTE Confidence: 0.93888485

00:01:17.005 --> 00:01:18.125 questions to, but I try
NOTE Confidence: 0.93888485

00:01:18.125 --> 00:01:19.005 to put myself in the
NOTE Confidence: 0.93888485

00:01:19.005 --> 00:01:19.805 role of what would I
NOTE Confidence: 0.93888485

00:01:19.805 --> 00:01:20.765 do if I were an
NOTE Confidence: 0.93888485

00:01:20.765 --> 00:01:21.265 independent,
NOTE Confidence: 0.9332206

00:01:22.045 --> 00:01:23.584 provider leading this team.
NOTE Confidence: 0.9463128

00:01:24.125 --> 00:01:25.084 This is one of the
NOTE Confidence: 0.9463128

00:01:25.084 --> 00:01:26.284 first rotations that you do
NOTE Confidence: 0.9463128

00:01:26.284 --> 00:01:27.565 during your PGY two year.
NOTE Confidence: 0.9463128

00:01:27.884 --> 00:01:28.845 You work with the general
NOTE Confidence: 0.9463128

00:01:28.845 --> 00:01:30.240 senior and the attending to
NOTE Confidence: 0.9463128

00:01:30.240 --> 00:01:32.000 to learn the the basics
NOTE Confidence: 0.9463128

00:01:32.000 --> 00:01:33.540 of the fun most fundamental
NOTE Confidence: 0.9463128

00:01:33.760 --> 00:01:34.740 neurologic diseases,
NOTE Confidence: 0.9329522

00:01:35.280 --> 00:01:35.920 that we will see in
NOTE Confidence: 0.9329522

00:01:35.920 --> 00:01:36.580 the hospital.

NOTE Confidence: 0.8961219

00:01:37.600 --> 00:01:38.560 One of the great things

NOTE Confidence: 0.8961219

00:01:38.560 --> 00:01:40.240 about our residency and having

NOTE Confidence: 0.8961219

00:01:40.240 --> 00:01:41.600 a balance with the inpatient

NOTE Confidence: 0.8961219

00:01:41.600 --> 00:01:43.275 general neurology service in our

NOTE Confidence: 0.8961219

00:01:43.275 --> 00:01:45.115 outpatient clinics, that you really

NOTE Confidence: 0.8961219

00:01:45.115 --> 00:01:46.235 get to see the whole

NOTE Confidence: 0.8961219

00:01:46.235 --> 00:01:48.015 arc of someone's disease process.

NOTE Confidence: 0.8961219

00:01:48.075 --> 00:01:48.875 And a lot of people

NOTE Confidence: 0.8961219

00:01:48.875 --> 00:01:49.915 we treat in the hospital,

NOTE Confidence: 0.8961219

00:01:49.915 --> 00:01:50.955 we then see later in

NOTE Confidence: 0.8961219

00:01:50.955 --> 00:01:52.735 clinic who are doing better,

NOTE Confidence: 0.8961219

00:01:52.795 --> 00:01:54.155 who are on medication that

NOTE Confidence: 0.8961219

00:01:54.155 --> 00:01:55.680 helps them. And it's really

NOTE Confidence: 0.8352562

00:01:56.160 --> 00:01:58.000 inspiring to see the long

NOTE Confidence: 0.8352562

00:01:58.000 --> 00:01:59.600 term positive outcomes that can

NOTE Confidence: 0.8352562

00:01:59.600 --> 00:02:01.120 happen from work with starting

NOTE Confidence: 0.8352562

00:02:01.120 --> 00:02:02.180 from happening in the hospital.

NOTE Confidence: 0.99106926

00:02:02.560 --> 00:02:03.600 I really enjoy getting to

NOTE Confidence: 0.99106926

00:02:03.600 --> 00:02:04.480 know the patients and their

NOTE Confidence: 0.99106926

00:02:04.480 --> 00:02:04.980 families,

NOTE Confidence: 0.95855236

00:02:05.600 --> 00:02:06.560 talking to them every day,

NOTE Confidence: 0.95855236

00:02:06.560 --> 00:02:07.906 helping them through their diagnosis,

NOTE Confidence: 0.9897099

00:02:08.946 --> 00:02:09.446 and

NOTE Confidence: 0.9631036

00:02:10.146 --> 00:02:11.666 coordinating their care for their

NOTE Confidence: 0.9631036

00:02:11.666 --> 00:02:12.886 entire time in the hospital.
