

WEBVTT

NOTE duration: "00:18:18.197"

NOTE Confidence: 0.9714601

00:00:00.240 --> 00:00:01.599 Welcome to everybody. I'm Jonathan

NOTE Confidence: 0.9714601

00:00:01.599 --> 00:00:02.080 Grauer,

NOTE Confidence: 0.98762393

00:00:02.480 --> 00:00:03.220 from OAPD,

NOTE Confidence: 0.8776321

00:00:03.919 --> 00:00:04.660 from Orthopaedics.

NOTE Confidence: 0.97016424

00:00:05.519 --> 00:00:07.040 We're gonna we're gonna in

NOTE Confidence: 0.97016424

00:00:07.040 --> 00:00:07.759 the time of year where

NOTE Confidence: 0.97016424

00:00:07.759 --> 00:00:08.800 we're gonna start to talk

NOTE Confidence: 0.97016424

00:00:08.800 --> 00:00:09.840 about a bunch of the

NOTE Confidence: 0.97016424

00:00:09.840 --> 00:00:11.599 pieces of the mechanical things

NOTE Confidence: 0.97016424

00:00:11.599 --> 00:00:13.139 that go into the appointments

NOTE Confidence: 0.97016424

00:00:13.200 --> 00:00:14.500 and promotion process.

NOTE Confidence: 0.9772032

00:00:16.215 --> 00:00:17.735 Great to have everyone join.

NOTE Confidence: 0.9772032

00:00:17.735 --> 00:00:19.575 Please feel free to ask

NOTE Confidence: 0.9772032

00:00:19.575 --> 00:00:20.855 any questions. I don't think

NOTE Confidence: 0.9772032

00:00:20.855 --> 00:00:21.655 my talk will be too
NOTE Confidence: 0.9772032

00:00:21.655 --> 00:00:22.935 long today, and then we'll
NOTE Confidence: 0.9772032

00:00:22.935 --> 00:00:24.635 really just open it up.
NOTE Confidence: 0.97627956

00:00:25.335 --> 00:00:26.695 But it's important to kinda
NOTE Confidence: 0.97627956

00:00:26.695 --> 00:00:28.635 just make sure everyone's familiar
NOTE Confidence: 0.97627956

00:00:28.855 --> 00:00:29.415 with the,
NOTE Confidence: 0.9968105

00:00:30.050 --> 00:00:31.250 kind of mechanics of what
NOTE Confidence: 0.9968105

00:00:31.250 --> 00:00:32.210 we're gonna be talking about.
NOTE Confidence: 0.9968105

00:00:32.210 --> 00:00:33.489 So let me get that
NOTE Confidence: 0.9968105

00:00:33.489 --> 00:00:33.989 shared.
NOTE Confidence: 0.9700217

00:00:39.729 --> 00:00:40.610 So as I said, you
NOTE Confidence: 0.9700217

00:00:40.610 --> 00:00:41.729 know, we're gonna go through
NOTE Confidence: 0.9700217

00:00:41.729 --> 00:00:43.515 over the next, number of
NOTE Confidence: 0.9700217

00:00:43.515 --> 00:00:45.114 workshops. We're gonna start here
NOTE Confidence: 0.9700217

00:00:45.114 --> 00:00:46.155 with CV one,
NOTE Confidence: 0.93949366

00:00:46.875 --> 00:00:48.315 kind of the kind of

NOTE Confidence: 0.93949366

00:00:48.315 --> 00:00:50.475 classic CV. CV part two

NOTE Confidence: 0.93949366

00:00:50.475 --> 00:00:52.475 is supplemental information, samples of

NOTE Confidence: 0.93949366

00:00:52.475 --> 00:00:54.555 scholarship, teaching evaluations, letters of

NOTE Confidence: 0.93949366

00:00:54.555 --> 00:00:55.055 evaluation.

NOTE Confidence: 0.9868413

00:00:55.530 --> 00:00:56.890 We'll be covering these different,

NOTE Confidence: 0.9868413

00:00:57.210 --> 00:00:58.969 topics and and certainly welcome

NOTE Confidence: 0.9868413

00:00:58.969 --> 00:01:00.510 everybody to join us.

NOTE Confidence: 0.9985446

00:01:02.010 --> 00:01:02.510 So

NOTE Confidence: 0.9638829

00:01:02.890 --> 00:01:04.350 CV one is

NOTE Confidence: 0.95770967

00:01:04.810 --> 00:01:06.009 pretty basic of a concept.

NOTE Confidence: 0.95770967

00:01:06.009 --> 00:01:07.209 It's it's our CV that

NOTE Confidence: 0.95770967

00:01:07.209 --> 00:01:09.187 represents what we do. And

NOTE Confidence: 0.95770967

00:01:09.187 --> 00:01:10.584 it so it's important for

NOTE Confidence: 0.95770967

00:01:10.584 --> 00:01:11.834 many phases of our life

NOTE Confidence: 0.95770967

00:01:11.834 --> 00:01:12.334 for,

NOTE Confidence: 0.9574971

00:01:13.194 --> 00:01:14.954 appointments and kinda getting here,
NOTE Confidence: 0.9574971

00:01:14.954 --> 00:01:16.334 for promotion, for
NOTE Confidence: 0.9976673

00:01:16.795 --> 00:01:18.234 different people wanting it at
NOTE Confidence: 0.9976673

00:01:18.234 --> 00:01:19.054 different times.
NOTE Confidence: 0.9857836

00:01:19.674 --> 00:01:21.435 It's really important. And the
NOTE Confidence: 0.9857836

00:01:21.435 --> 00:01:22.875 reason why we put a
NOTE Confidence: 0.9857836

00:01:22.875 --> 00:01:24.155 lot of effort into a
NOTE Confidence: 0.9857836

00:01:24.155 --> 00:01:26.230 a common format is to
NOTE Confidence: 0.98657817

00:01:27.010 --> 00:01:28.690 kinda have a common language
NOTE Confidence: 0.98657817

00:01:28.690 --> 00:01:30.370 of how CVs are are
NOTE Confidence: 0.98657817

00:01:30.370 --> 00:01:31.490 looked at. A lot of
NOTE Confidence: 0.98657817

00:01:31.490 --> 00:01:32.950 times when things are reviewed
NOTE Confidence: 0.98657817

00:01:33.170 --> 00:01:34.930 at the medical school, people,
NOTE Confidence: 0.98657817

00:01:34.930 --> 00:01:35.650 when they pick it up,
NOTE Confidence: 0.98657817

00:01:35.650 --> 00:01:37.110 they're looking in certain sections,
NOTE Confidence: 0.99331915

00:01:37.810 --> 00:01:39.250 for things that that they're

NOTE Confidence: 0.99331915

00:01:39.250 --> 00:01:40.150 used to seeing.

NOTE Confidence: 0.97590655

00:01:40.985 --> 00:01:42.905 And it's really not the

NOTE Confidence: 0.97590655

00:01:42.905 --> 00:01:45.245 purpose to be picking nitpicky

NOTE Confidence: 0.97590655

00:01:45.305 --> 00:01:46.905 about this area or that

NOTE Confidence: 0.97590655

00:01:46.905 --> 00:01:48.585 area. It's really a way

NOTE Confidence: 0.97590655

00:01:48.585 --> 00:01:50.685 to try to help optimize

NOTE Confidence: 0.97590655

00:01:50.905 --> 00:01:52.365 the forward face of faculty.

NOTE Confidence: 0.97590655

00:01:52.585 --> 00:01:54.180 So, you know, it it's

NOTE Confidence: 0.97590655

00:01:54.500 --> 00:01:55.860 really the goal is to

NOTE Confidence: 0.97590655

00:01:55.860 --> 00:01:57.380 make this so that it

NOTE Confidence: 0.97590655

00:01:57.380 --> 00:01:58.900 best represents you. And when

NOTE Confidence: 0.97590655

00:01:58.900 --> 00:01:59.860 people are looking at it,

NOTE Confidence: 0.97590655

00:01:59.860 --> 00:02:01.460 they acknowledge all the important

NOTE Confidence: 0.97590655

00:02:01.460 --> 00:02:02.360 things you do.

NOTE Confidence: 0.99388707

00:02:02.740 --> 00:02:04.260 Over the years, there's been

NOTE Confidence: 0.99388707

00:02:04.260 --> 00:02:05.860 some things that have evolved
NOTE Confidence: 0.99388707

00:02:05.860 --> 00:02:07.604 where more faculty are doing
NOTE Confidence: 0.99388707

00:02:07.604 --> 00:02:09.364 things in certain areas and
NOTE Confidence: 0.99388707

00:02:09.364 --> 00:02:10.724 efforts to make sure that
NOTE Confidence: 0.99388707

00:02:10.724 --> 00:02:12.084 there are ways to incorporate
NOTE Confidence: 0.99388707

00:02:12.084 --> 00:02:13.044 that, and we'll touch on
NOTE Confidence: 0.99388707

00:02:13.044 --> 00:02:14.025 some of those points.
NOTE Confidence: 0.9813087

00:02:14.645 --> 00:02:15.685 And then there are some
NOTE Confidence: 0.9813087

00:02:15.685 --> 00:02:17.864 things, the the inward facing
NOTE Confidence: 0.9813087

00:02:17.925 --> 00:02:18.885 things that we do at
NOTE Confidence: 0.9813087

00:02:18.885 --> 00:02:19.864 Yale that sometimes
NOTE Confidence: 0.98282176

00:02:20.230 --> 00:02:21.670 are not really designed to
NOTE Confidence: 0.98282176

00:02:21.670 --> 00:02:22.810 be part of a CV.
NOTE Confidence: 0.98282176

00:02:23.030 --> 00:02:24.630 But that's where CV two,
NOTE Confidence: 0.98857796

00:02:25.030 --> 00:02:26.810 really shines through to help
NOTE Confidence: 0.98857796

00:02:26.950 --> 00:02:28.870 say, yes. That's important. And

NOTE Confidence: 0.98857796

00:02:28.870 --> 00:02:29.590 when it comes to the

NOTE Confidence: 0.98857796

00:02:29.590 --> 00:02:31.270 appointments and promotion process, those

NOTE Confidence: 0.98857796

00:02:31.270 --> 00:02:32.650 things make a big difference.

NOTE Confidence: 0.98857796

00:02:32.875 --> 00:02:34.715 And there's absolutely ways to

NOTE Confidence: 0.98857796

00:02:34.715 --> 00:02:36.655 share that and to express

NOTE Confidence: 0.98857796

00:02:36.875 --> 00:02:38.155 all those important things you're

NOTE Confidence: 0.98857796

00:02:38.155 --> 00:02:38.655 doing,

NOTE Confidence: 0.9997346

00:02:39.114 --> 00:02:39.614 but

NOTE Confidence: 0.94431466

00:02:39.915 --> 00:02:41.435 but not always, for the

NOTE Confidence: 0.94431466

00:02:41.435 --> 00:02:42.715 CB one. And so that's

NOTE Confidence: 0.94431466

00:02:42.715 --> 00:02:43.435 where we try to get

NOTE Confidence: 0.94431466

00:02:43.435 --> 00:02:44.495 a common language.

NOTE Confidence: 0.99197745

00:02:45.300 --> 00:02:46.440 So it kinda documents

NOTE Confidence: 0.9995006

00:02:46.740 --> 00:02:48.740 your career history and your

NOTE Confidence: 0.9995006

00:02:48.740 --> 00:02:50.600 recognition outside of Yale.

NOTE Confidence: 0.99925464

00:02:51.220 --> 00:02:52.120 It is what
NOTE Confidence: 0.99140775

00:02:52.500 --> 00:02:53.320 is typically
NOTE Confidence: 0.9833812

00:02:53.780 --> 00:02:55.620 publicly visible. So it's really
NOTE Confidence: 0.9833812

00:02:55.620 --> 00:02:56.980 a way to organize. If
NOTE Confidence: 0.9833812

00:02:56.980 --> 00:02:58.285 you searched any one of
NOTE Confidence: 0.9833812

00:02:58.285 --> 00:02:59.325 us and spent enough time,
NOTE Confidence: 0.9833812

00:02:59.325 --> 00:03:00.365 you'd figure out where we
NOTE Confidence: 0.9833812

00:03:00.365 --> 00:03:01.565 did our training. You'd figure
NOTE Confidence: 0.9833812

00:03:01.565 --> 00:03:02.605 out what you published and
NOTE Confidence: 0.9833812

00:03:02.605 --> 00:03:03.645 where you talked and what
NOTE Confidence: 0.9833812

00:03:03.645 --> 00:03:04.845 you did. And it's really
NOTE Confidence: 0.9833812

00:03:04.845 --> 00:03:06.145 the goal of capturing
NOTE Confidence: 0.98135626

00:03:06.605 --> 00:03:07.105 that.
NOTE Confidence: 0.966326

00:03:07.405 --> 00:03:08.285 And as I say, the
NOTE Confidence: 0.966326

00:03:08.285 --> 00:03:09.825 the common format's helpful.
NOTE Confidence: 0.95959616

00:03:10.285 --> 00:03:11.550 And I'm gonna harp on

NOTE Confidence: 0.95959616

00:03:11.550 --> 00:03:12.590 that a few times. It

NOTE Confidence: 0.95959616

00:03:12.590 --> 00:03:13.870 just sounds kind of like

NOTE Confidence: 0.95959616

00:03:13.870 --> 00:03:15.310 a pretty obvious thing where

NOTE Confidence: 0.95959616

00:03:15.310 --> 00:03:15.950 we say, oh, yeah. Of

NOTE Confidence: 0.95959616

00:03:15.950 --> 00:03:16.990 course. We're gonna put it

NOTE Confidence: 0.95959616

00:03:16.990 --> 00:03:18.210 together in the right format.

NOTE Confidence: 0.95019495

00:03:18.830 --> 00:03:20.350 The an enormous number of

NOTE Confidence: 0.95019495

00:03:20.350 --> 00:03:21.470 ones that come through our

NOTE Confidence: 0.95019495

00:03:21.470 --> 00:03:23.085 office are in different

NOTE Confidence: 0.807008

00:03:24.285 --> 00:03:25.725 orders or done with information,

NOTE Confidence: 0.807008

00:03:25.725 --> 00:03:26.785 and it's just really

NOTE Confidence: 0.8936117

00:03:27.165 --> 00:03:28.445 there to help faculty. And

NOTE Confidence: 0.8936117

00:03:28.445 --> 00:03:29.565 we wanna help guide you

NOTE Confidence: 0.8936117

00:03:29.565 --> 00:03:30.385 through this.

NOTE Confidence: 0.96368265

00:03:32.205 --> 00:03:32.705 So

NOTE Confidence: 0.9533877

00:03:33.965 --> 00:03:35.031 don't worry about getting all
NOTE Confidence: 0.9533877

00:03:35.031 --> 00:03:36.145 the information. It's
NOTE Confidence: 0.9480336

00:03:36.445 --> 00:03:37.690 all on the website. If
NOTE Confidence: 0.9480336

00:03:37.690 --> 00:03:39.209 you just type into any
NOTE Confidence: 0.9480336

00:03:39.209 --> 00:03:40.670 browser, Yale OAPD,
NOTE Confidence: 0.998683

00:03:41.450 --> 00:03:42.590 and go to the academic
NOTE Confidence: 0.998683

00:03:42.730 --> 00:03:43.709 affairs tab
NOTE Confidence: 0.8882279

00:03:44.010 --> 00:03:45.230 under the documents,
NOTE Confidence: 0.96767783

00:03:46.010 --> 00:03:46.510 information,
NOTE Confidence: 0.95593196

00:03:46.970 --> 00:03:47.850 there is a tab that
NOTE Confidence: 0.95593196

00:03:47.850 --> 00:03:48.970 has c d one. There's
NOTE Confidence: 0.95593196

00:03:48.970 --> 00:03:50.330 nothing I'm gonna show today
NOTE Confidence: 0.95593196

00:03:50.330 --> 00:03:51.745 that's not there. This is
NOTE Confidence: 0.95593196

00:03:51.745 --> 00:03:52.865 just a way to help
NOTE Confidence: 0.95593196

00:03:52.865 --> 00:03:54.405 summarize it and then hopefully
NOTE Confidence: 0.95593196

00:03:54.465 --> 00:03:56.565 start some discussion we'll have.

NOTE Confidence: 0.9969306

00:03:57.425 --> 00:03:59.125 Not only are things described,

NOTE Confidence: 0.9834421

00:03:59.425 --> 00:04:01.025 but you'll see in this

NOTE Confidence: 0.9834421

00:04:01.025 --> 00:04:02.565 kind of bluish,

NOTE Confidence: 0.9994696

00:04:03.960 --> 00:04:04.460 background

NOTE Confidence: 0.9616563

00:04:04.840 --> 00:04:06.620 are samples that are interspersed

NOTE Confidence: 0.9616563

00:04:06.840 --> 00:04:08.600 through the different sections showing

NOTE Confidence: 0.9616563

00:04:08.600 --> 00:04:10.220 you kind of examples

NOTE Confidence: 0.9996063

00:04:10.520 --> 00:04:12.380 of how things are related.

NOTE Confidence: 0.9890769

00:04:16.065 --> 00:04:17.505 So we're just gonna go

NOTE Confidence: 0.9890769

00:04:17.505 --> 00:04:18.945 through these different sections and

NOTE Confidence: 0.9890769

00:04:18.945 --> 00:04:20.225 kinda talk about why they're

NOTE Confidence: 0.9890769

00:04:20.225 --> 00:04:21.845 important and what things are.

NOTE Confidence: 0.9815062

00:04:25.985 --> 00:04:27.665 First things are your your

NOTE Confidence: 0.9815062

00:04:27.665 --> 00:04:29.365 training background, your education,

NOTE Confidence: 0.9279782

00:04:30.990 --> 00:04:32.589 going through that, and career

NOTE Confidence: 0.9279782

00:04:32.589 --> 00:04:33.089 appointments,
NOTE Confidence: 0.9804849

00:04:33.470 --> 00:04:35.009 whether you if you started
NOTE Confidence: 0.9804849

00:04:35.069 --> 00:04:36.589 outside of Yale, came to
NOTE Confidence: 0.9804849

00:04:36.589 --> 00:04:38.029 Yale, or tracking the things
NOTE Confidence: 0.9804849

00:04:38.029 --> 00:04:39.330 you've done at Yale.
NOTE Confidence: 0.9697194

00:04:40.029 --> 00:04:41.789 This and all sections are
NOTE Confidence: 0.9697194

00:04:41.789 --> 00:04:43.250 in chronological order.
NOTE Confidence: 0.9671194

00:04:43.595 --> 00:04:44.475 Back in the day, it's
NOTE Confidence: 0.9671194

00:04:44.475 --> 00:04:45.995 been many years now. Some
NOTE Confidence: 0.9671194

00:04:45.995 --> 00:04:47.375 things were in reverse chronological
NOTE Confidence: 0.9671194

00:04:47.435 --> 00:04:49.435 order, but now every section
NOTE Confidence: 0.9671194

00:04:49.435 --> 00:04:50.395 through the CV is in
NOTE Confidence: 0.9671194

00:04:50.395 --> 00:04:51.915 chronological order, and it's routine
NOTE Confidence: 0.9671194

00:04:51.915 --> 00:04:52.795 for people to pop to
NOTE Confidence: 0.9671194

00:04:52.795 --> 00:04:53.915 the end of each of
NOTE Confidence: 0.9671194

00:04:53.915 --> 00:04:54.955 the sections if they wanna

NOTE Confidence: 0.9671194

00:04:54.955 --> 00:04:56.320 see the most current. Do

NOTE Confidence: 0.9671194

00:04:56.320 --> 00:04:57.600 yourself the favor. Keep it

NOTE Confidence: 0.9671194

00:04:57.600 --> 00:04:58.720 in that order. It's also

NOTE Confidence: 0.9671194

00:04:58.720 --> 00:05:00.400 much easier as things evolve

NOTE Confidence: 0.9671194

00:05:00.400 --> 00:05:01.680 on your CV. You're adding

NOTE Confidence: 0.9671194

00:05:01.680 --> 00:05:02.480 it to the end. It

NOTE Confidence: 0.9671194

00:05:02.480 --> 00:05:02.980 doesn't

NOTE Confidence: 0.97487694

00:05:03.520 --> 00:05:05.279 renumber all the ear earlier

NOTE Confidence: 0.97487694

00:05:05.279 --> 00:05:06.640 things. It doesn't change all

NOTE Confidence: 0.97487694

00:05:06.640 --> 00:05:08.000 of that. It's really a

NOTE Confidence: 0.97487694

00:05:08.000 --> 00:05:09.060 very consistent,

NOTE Confidence: 0.999493

00:05:10.240 --> 00:05:10.740 process.

NOTE Confidence: 0.8769757

00:05:13.675 --> 00:05:14.975 Administrative positions.

NOTE Confidence: 0.999032

00:05:15.515 --> 00:05:17.775 These are usually program leadership

NOTE Confidence: 0.999032

00:05:17.995 --> 00:05:18.654 or coordination

NOTE Confidence: 0.9520204

00:05:19.035 --> 00:05:19.535 positions,
NOTE Confidence: 0.9678739

00:05:20.635 --> 00:05:22.235 and and certainly things that
NOTE Confidence: 0.9678739

00:05:22.235 --> 00:05:24.095 we call out and,
NOTE Confidence: 0.97177196

00:05:24.875 --> 00:05:25.375 recognize.
NOTE Confidence: 0.9971847

00:05:26.290 --> 00:05:27.990 Board certification and advanced
NOTE Confidence: 0.9997727

00:05:28.450 --> 00:05:28.950 training
NOTE Confidence: 0.9651827

00:05:29.330 --> 00:05:29.830 certificates.
NOTE Confidence: 0.9455336

00:05:30.450 --> 00:05:32.130 So there's a section here
NOTE Confidence: 0.9455336

00:05:32.130 --> 00:05:34.610 for board certification. And we
NOTE Confidence: 0.9455336

00:05:34.610 --> 00:05:35.810 added in because people are
NOTE Confidence: 0.9455336

00:05:35.810 --> 00:05:37.089 really looking where do they
NOTE Confidence: 0.9455336

00:05:37.089 --> 00:05:39.145 put things such as training
NOTE Confidence: 0.9455336

00:05:39.145 --> 00:05:40.925 and certification for substantive
NOTE Confidence: 0.7719255

00:05:41.225 --> 00:05:42.445 nondegree education,
NOTE Confidence: 0.9511292

00:05:42.985 --> 00:05:44.764 faculty development programs.
NOTE Confidence: 0.8642984

00:05:45.785 --> 00:05:47.705 Advanced leadership program was one

NOTE Confidence: 0.8642984

00:05:47.705 --> 00:05:48.585 of those ones a lot

NOTE Confidence: 0.8642984

00:05:48.585 --> 00:05:49.865 that kind of bounced back

NOTE Confidence: 0.8642984

00:05:49.865 --> 00:05:50.824 and forth. And for everyone

NOTE Confidence: 0.8642984

00:05:50.824 --> 00:05:51.625 who was in a different

NOTE Confidence: 0.8642984

00:05:51.625 --> 00:05:52.585 spot, somebody will put it

NOTE Confidence: 0.8642984

00:05:52.585 --> 00:05:53.865 under education, somebody will put

NOTE Confidence: 0.8642984

00:05:53.865 --> 00:05:54.445 it elsewhere,

NOTE Confidence: 0.96268415

00:05:54.960 --> 00:05:56.000 really trying to bring it

NOTE Confidence: 0.96268415

00:05:56.000 --> 00:05:57.279 together so when people are

NOTE Confidence: 0.96268415

00:05:57.279 --> 00:05:58.400 looking for things, they're in

NOTE Confidence: 0.96268415

00:05:58.400 --> 00:06:00.080 a common location. So this

NOTE Confidence: 0.96268415

00:06:00.080 --> 00:06:01.540 is where that's being recommended.

NOTE Confidence: 0.960755

00:06:04.400 --> 00:06:06.180 Professional honors and recognition.

NOTE Confidence: 0.9761696

00:06:07.015 --> 00:06:08.295 Obviously, we wanna hear about

NOTE Confidence: 0.9761696

00:06:08.295 --> 00:06:10.235 the things that, you're recognized

NOTE Confidence: 0.9761696

00:06:10.455 --> 00:06:12.214 for, and they're divided based

NOTE Confidence: 0.9761696

00:06:12.214 --> 00:06:13.835 on the scope of practice

NOTE Confidence: 0.9761696

00:06:13.895 --> 00:06:15.995 of who the audience is.

NOTE Confidence: 0.9761696

00:06:16.214 --> 00:06:17.335 And that's really common for

NOTE Confidence: 0.9761696

00:06:17.335 --> 00:06:18.395 a bunch of these subsequent

NOTE Confidence: 0.9761696

00:06:18.455 --> 00:06:19.815 sections that they will be

NOTE Confidence: 0.9761696

00:06:19.815 --> 00:06:21.255 divided into the scope of

NOTE Confidence: 0.9761696

00:06:21.255 --> 00:06:21.755 section.

NOTE Confidence: 0.98861367

00:06:22.135 --> 00:06:23.410 It's a little less relevant

NOTE Confidence: 0.98861367

00:06:23.410 --> 00:06:24.790 here for honors and recognition

NOTE Confidence: 0.98861367

00:06:24.850 --> 00:06:26.070 as for things like presentation.

NOTE Confidence: 0.97783643

00:06:26.690 --> 00:06:27.910 When you kinda wonder

NOTE Confidence: 0.9837358

00:06:28.610 --> 00:06:30.130 what is the geography, the

NOTE Confidence: 0.9837358

00:06:30.130 --> 00:06:31.490 region of that, think of

NOTE Confidence: 0.9837358

00:06:31.490 --> 00:06:32.230 the audience

NOTE Confidence: 0.99907446

00:06:32.610 --> 00:06:34.770 of who is receiving that

NOTE Confidence: 0.99907446

00:06:34.770 --> 00:06:35.714 or giving

NOTE Confidence: 0.987255

00:06:36.095 --> 00:06:37.315 that. So in other words,

NOTE Confidence: 0.96260357

00:06:37.775 --> 00:06:39.294 if you are kind of

NOTE Confidence: 0.96260357

00:06:39.294 --> 00:06:41.214 given some award or giving

NOTE Confidence: 0.96260357

00:06:41.214 --> 00:06:42.975 some talk at a national

NOTE Confidence: 0.96260357

00:06:42.975 --> 00:06:44.255 meeting, but it happened to

NOTE Confidence: 0.96260357

00:06:44.255 --> 00:06:46.115 be close in geography,

NOTE Confidence: 0.96801585

00:06:46.574 --> 00:06:47.455 it doesn't mean it's a

NOTE Confidence: 0.96801585

00:06:47.455 --> 00:06:49.475 regional presentation. If the audience

NOTE Confidence: 0.96801585

00:06:49.615 --> 00:06:52.080 is beyond national, think of

NOTE Confidence: 0.96801585

00:06:52.080 --> 00:06:54.160 the audience who's getting who's

NOTE Confidence: 0.96801585

00:06:54.160 --> 00:06:54.740 kind of

NOTE Confidence: 0.8342366

00:06:55.839 --> 00:06:56.339 giving,

NOTE Confidence: 0.99443054

00:06:56.640 --> 00:06:57.140 bestowing,

NOTE Confidence: 0.99832124

00:06:58.560 --> 00:07:00.800 listening to that talk as

NOTE Confidence: 0.99832124

00:07:00.800 --> 00:07:02.740 what that geography is.
NOTE Confidence: 0.94944316

00:07:05.414 --> 00:07:07.175 Grant, grants and clinical trials,
NOTE Confidence: 0.94944316

00:07:07.175 --> 00:07:09.895 they're divided into current grants
NOTE Confidence: 0.94944316

00:07:09.895 --> 00:07:10.634 and past
NOTE Confidence: 0.9747726

00:07:11.014 --> 00:07:13.095 current clinical trials and past
NOTE Confidence: 0.9747726

00:07:13.095 --> 00:07:14.074 clinical trials.
NOTE Confidence: 0.9696698

00:07:14.455 --> 00:07:15.895 Again, just so that there's
NOTE Confidence: 0.9696698

00:07:15.895 --> 00:07:17.254 a common language to these,
NOTE Confidence: 0.9696698

00:07:17.254 --> 00:07:19.014 there's standard information in terms
NOTE Confidence: 0.9696698

00:07:19.014 --> 00:07:20.690 of what's asked for, in
NOTE Confidence: 0.9696698

00:07:20.690 --> 00:07:21.490 terms of each of the
NOTE Confidence: 0.9696698

00:07:21.490 --> 00:07:23.270 information, all spelled out,
NOTE Confidence: 0.9950057

00:07:23.570 --> 00:07:24.470 very consistent.
NOTE Confidence: 0.99508995

00:07:24.850 --> 00:07:26.130 Your departments can probably help
NOTE Confidence: 0.99508995

00:07:26.130 --> 00:07:27.169 you if you don't have
NOTE Confidence: 0.99508995

00:07:27.169 --> 00:07:27.990 all of that.

NOTE Confidence: 0.91050625

00:07:28.610 --> 00:07:30.130 Office of sponsored projects can

NOTE Confidence: 0.91050625

00:07:30.130 --> 00:07:31.729 probably help with that, but

NOTE Confidence: 0.91050625

00:07:31.729 --> 00:07:32.930 trying to pull together that

NOTE Confidence: 0.91050625

00:07:32.930 --> 00:07:33.430 information.

NOTE Confidence: 0.9805855

00:07:35.764 --> 00:07:38.025 Speaking engagements, really two different

NOTE Confidence: 0.9805855

00:07:38.085 --> 00:07:39.944 categories of speaking engagements.

NOTE Confidence: 0.9285958

00:07:40.805 --> 00:07:42.805 Invited speaking engagements, somebody asks

NOTE Confidence: 0.9285958

00:07:42.805 --> 00:07:43.844 you to go give a

NOTE Confidence: 0.9285958

00:07:43.844 --> 00:07:44.344 talk,

NOTE Confidence: 0.91422224

00:07:45.925 --> 00:07:46.905 kinda demonstrating

NOTE Confidence: 0.97398615

00:07:47.444 --> 00:07:49.340 that they're interested in hearing

NOTE Confidence: 0.97398615

00:07:49.340 --> 00:07:50.220 you and what you have

NOTE Confidence: 0.97398615

00:07:50.220 --> 00:07:51.419 to share, what you've done,

NOTE Confidence: 0.97398615

00:07:51.419 --> 00:07:53.260 what your perspective is. We

NOTE Confidence: 0.97398615

00:07:53.260 --> 00:07:54.380 think of that as kind

NOTE Confidence: 0.97398615

00:07:54.380 --> 00:07:56.320 of the invited speaking talk
NOTE Confidence: 0.97398615

00:07:56.380 --> 00:07:58.700 not affiliated with Yale. So
NOTE Confidence: 0.97398615

00:07:58.700 --> 00:07:59.680 to that point,
NOTE Confidence: 0.94538784

00:08:00.380 --> 00:08:01.980 if you give a talk
NOTE Confidence: 0.94538784

00:08:01.980 --> 00:08:03.290 here at the institution, even
NOTE Confidence: 0.9233649

00:08:04.195 --> 00:08:04.755 if you're doing that on
NOTE Confidence: 0.9233649

00:08:04.755 --> 00:08:05.735 a regular base,
NOTE Confidence: 0.8766104

00:08:06.195 --> 00:08:06.695 absolutely.
NOTE Confidence: 0.9636463

00:08:07.075 --> 00:08:09.175 Everyone's kind of, you know,
NOTE Confidence: 0.98008734

00:08:10.355 --> 00:08:12.375 acknowledges that. It's important.
NOTE Confidence: 0.97337437

00:08:13.155 --> 00:08:14.515 CV two, though, is where
NOTE Confidence: 0.97337437

00:08:14.515 --> 00:08:16.115 those inward facing things are
NOTE Confidence: 0.97337437

00:08:16.115 --> 00:08:16.615 represented.
NOTE Confidence: 0.9688919

00:08:17.960 --> 00:08:19.320 The other group of of
NOTE Confidence: 0.9688919

00:08:19.320 --> 00:08:20.920 presentations that people give are
NOTE Confidence: 0.9688919

00:08:20.920 --> 00:08:22.840 peer reviewed presentations. So you've

NOTE Confidence: 0.9688919
00:08:22.840 --> 00:08:24.840 submitted your work to a
NOTE Confidence: 0.9688919
00:08:24.840 --> 00:08:26.860 organization, to your societies.
NOTE Confidence: 0.9745678
00:08:27.240 --> 00:08:28.700 They have their annual meeting,
NOTE Confidence: 0.9784447
00:08:29.480 --> 00:08:30.940 or the like, and
NOTE Confidence: 0.9577815
00:08:31.815 --> 00:08:33.415 it's accepted, you're giving that
NOTE Confidence: 0.9577815
00:08:33.415 --> 00:08:34.375 often on behalf of a
NOTE Confidence: 0.9577815
00:08:34.375 --> 00:08:35.195 few authors,
NOTE Confidence: 0.96786076
00:08:36.135 --> 00:08:37.095 that's where you would list
NOTE Confidence: 0.96786076
00:08:37.095 --> 00:08:38.375 that. And, again, based on
NOTE Confidence: 0.96786076
00:08:38.375 --> 00:08:39.355 the audience
NOTE Confidence: 0.9949372
00:08:39.735 --> 00:08:40.955 of, their
NOTE Confidence: 0.81423825
00:08:41.975 --> 00:08:43.035 scope of region.
NOTE Confidence: 0.9935344
00:08:44.550 --> 00:08:45.530 Professional service,
NOTE Confidence: 0.9991086
00:08:46.950 --> 00:08:49.110 both outside of Yale and
NOTE Confidence: 0.9991086
00:08:49.110 --> 00:08:49.610 within
NOTE Confidence: 0.9641369

00:08:49.990 --> 00:08:51.290 Yale and the hospital,
NOTE Confidence: 0.9767759

00:08:51.990 --> 00:08:53.590 going through different things that
NOTE Confidence: 0.9767759

00:08:53.590 --> 00:08:55.190 you're involved in. Great to
NOTE Confidence: 0.9767759

00:08:55.190 --> 00:08:55.930 be involved.
NOTE Confidence: 0.99925417

00:08:56.265 --> 00:08:57.465 It's a really wonderful way
NOTE Confidence: 0.99925417

00:08:57.465 --> 00:08:59.145 to show your involvement beyond
NOTE Confidence: 0.99925417

00:08:59.145 --> 00:08:59.885 the institution.
NOTE Confidence: 0.96744055

00:09:00.505 --> 00:09:01.465 I will say that as
NOTE Confidence: 0.96744055

00:09:01.625 --> 00:09:02.665 and we're gonna talk about
NOTE Confidence: 0.96744055

00:09:02.665 --> 00:09:03.865 how to build reputation, but
NOTE Confidence: 0.96744055

00:09:03.865 --> 00:09:05.065 as you're doing these types
NOTE Confidence: 0.96744055

00:09:05.065 --> 00:09:05.725 of things,
NOTE Confidence: 0.9840518

00:09:06.745 --> 00:09:07.865 think about not just being
NOTE Confidence: 0.9840518

00:09:07.865 --> 00:09:08.825 the member, but, you know,
NOTE Confidence: 0.9840518

00:09:08.825 --> 00:09:10.025 how do you get involved
NOTE Confidence: 0.9840518

00:09:10.025 --> 00:09:11.709 in committees and other things?

NOTE Confidence: 0.9840518

00:09:11.709 --> 00:09:12.589 It's a great way to

NOTE Confidence: 0.9840518

00:09:12.589 --> 00:09:14.029 represent kind of a very

NOTE Confidence: 0.9840518

00:09:14.029 --> 00:09:15.809 active role beyond the institution.

NOTE Confidence: 0.9840518

00:09:15.870 --> 00:09:17.149 We're gonna have different talks,

NOTE Confidence: 0.9840518

00:09:17.389 --> 00:09:19.149 really how to optimize and,

NOTE Confidence: 0.9840518

00:09:19.149 --> 00:09:20.350 you know, work on those

NOTE Confidence: 0.9840518

00:09:20.350 --> 00:09:21.870 types of things. Same thing

NOTE Confidence: 0.9840518

00:09:21.870 --> 00:09:22.690 at the university,

NOTE Confidence: 0.939349

00:09:23.709 --> 00:09:24.610 and the hospital,

NOTE Confidence: 0.99644935

00:09:25.235 --> 00:09:26.434 thinking about the committees that

NOTE Confidence: 0.99644935

00:09:26.434 --> 00:09:27.095 you're on.

NOTE Confidence: 0.9942906

00:09:28.834 --> 00:09:30.274 Public service and,

NOTE Confidence: 0.95564824

00:09:30.834 --> 00:09:32.535 media presence, patents,

NOTE Confidence: 0.98066914

00:09:33.154 --> 00:09:35.074 growing faculty engagement in these

NOTE Confidence: 0.98066914

00:09:35.074 --> 00:09:36.774 areas when these are substantive

NOTE Confidence: 0.98066914

00:09:36.915 --> 00:09:38.370 things, things that people put

NOTE Confidence: 0.98066914

00:09:38.370 --> 00:09:39.490 a lot into, it's a

NOTE Confidence: 0.98066914

00:09:39.490 --> 00:09:40.449 great way to be able

NOTE Confidence: 0.98066914

00:09:40.449 --> 00:09:42.290 to represent that and keep

NOTE Confidence: 0.98066914

00:09:42.290 --> 00:09:43.110 this information

NOTE Confidence: 0.9981042

00:09:43.569 --> 00:09:44.069 together.

NOTE Confidence: 0.9938883

00:09:45.569 --> 00:09:46.769 Bibliography is one of the

NOTE Confidence: 0.9938883

00:09:46.769 --> 00:09:47.889 big sections for many who

NOTE Confidence: 0.9938883

00:09:47.889 --> 00:09:49.190 are active with scholarship.

NOTE Confidence: 0.9967121

00:09:49.934 --> 00:09:51.554 Different sections are listed,

NOTE Confidence: 0.9835084

00:09:52.255 --> 00:09:54.015 and and pay attention to

NOTE Confidence: 0.9835084

00:09:54.015 --> 00:09:56.035 that. NIH formatting,

NOTE Confidence: 0.97414833

00:09:56.575 --> 00:09:57.695 try to really get a

NOTE Confidence: 0.97414833

00:09:57.695 --> 00:09:58.515 a consistent,

NOTE Confidence: 0.99110574

00:09:59.295 --> 00:10:01.295 way to represent them. There

NOTE Confidence: 0.99110574

00:10:01.295 --> 00:10:02.735 are places for links where

NOTE Confidence: 0.99110574

00:10:02.735 --> 00:10:03.554 you can add,

NOTE Confidence: 0.933801

00:10:04.079 --> 00:10:05.779 for your PubMed ID, PubMed

NOTE Confidence: 0.933801

00:10:05.839 --> 00:10:06.740 central ID,

NOTE Confidence: 0.9637673

00:10:07.679 --> 00:10:08.179 DOI,

NOTE Confidence: 0.9655109

00:10:08.880 --> 00:10:10.959 putting that information there. Make

NOTE Confidence: 0.9655109

00:10:10.959 --> 00:10:12.720 your name stand out, bold

NOTE Confidence: 0.9655109

00:10:12.720 --> 00:10:13.459 your name,

NOTE Confidence: 0.9871024

00:10:14.639 --> 00:10:16.319 things that we're that really

NOTE Confidence: 0.9871024

00:10:16.319 --> 00:10:17.745 are not included on this,

NOTE Confidence: 0.9871024

00:10:17.985 --> 00:10:19.105 things that are submitted and

NOTE Confidence: 0.9871024

00:10:19.105 --> 00:10:20.005 not yet accepted.

NOTE Confidence: 0.97138923

00:10:20.545 --> 00:10:21.265 A lot of people keep,

NOTE Confidence: 0.97138923

00:10:21.265 --> 00:10:22.225 like, a working draft of

NOTE Confidence: 0.97138923

00:10:22.225 --> 00:10:23.505 your CV where things like

NOTE Confidence: 0.97138923

00:10:23.505 --> 00:10:25.265 that are tracked and listed.

NOTE Confidence: 0.97138923

00:10:25.265 --> 00:10:26.705 But when you're getting this
NOTE Confidence: 0.97138923

00:10:26.705 --> 00:10:29.025 together to really share to
NOTE Confidence: 0.97138923

00:10:29.025 --> 00:10:29.985 others and share it for
NOTE Confidence: 0.97138923

00:10:29.985 --> 00:10:31.780 the appointments and promotions, Those
NOTE Confidence: 0.97138923

00:10:31.780 --> 00:10:33.140 things are expected not to
NOTE Confidence: 0.97138923

00:10:33.140 --> 00:10:34.040 be on it.
NOTE Confidence: 0.9305151

00:10:34.820 --> 00:10:35.320 Abstracts,
NOTE Confidence: 0.9895495

00:10:36.500 --> 00:10:38.100 a lot of societies are
NOTE Confidence: 0.9895495

00:10:38.100 --> 00:10:39.620 publishing the abstracts that are
NOTE Confidence: 0.9895495

00:10:39.620 --> 00:10:41.220 submitted there. Those things are
NOTE Confidence: 0.9895495

00:10:41.220 --> 00:10:42.260 really not there. It kind
NOTE Confidence: 0.9895495

00:10:42.260 --> 00:10:43.620 of is duplicative with the
NOTE Confidence: 0.9895495

00:10:43.620 --> 00:10:46.295 talk, and other forms of
NOTE Confidence: 0.9895495

00:10:46.295 --> 00:10:47.035 showing this.
NOTE Confidence: 0.95791435

00:10:47.575 --> 00:10:48.075 Preprints,
NOTE Confidence: 0.94045466

00:10:48.775 --> 00:10:50.315 again, not something that here.

NOTE Confidence: 0.9710636
00:10:51.015 --> 00:10:52.955 Annotations, citation numbers,
NOTE Confidence: 0.9971748
00:10:53.415 --> 00:10:54.375 not things that are part
NOTE Confidence: 0.9971748
00:10:54.375 --> 00:10:55.434 of the standard format.
NOTE Confidence: 0.9587736
00:10:59.740 --> 00:11:01.420 So those are really the
NOTE Confidence: 0.9587736
00:11:01.420 --> 00:11:01.920 sections.
NOTE Confidence: 0.99631464
00:11:02.380 --> 00:11:04.220 So, you know, we try
NOTE Confidence: 0.99631464
00:11:04.220 --> 00:11:04.960 to make this
NOTE Confidence: 0.95593476
00:11:05.500 --> 00:11:06.460 as kinda clear as we
NOTE Confidence: 0.95593476
00:11:06.460 --> 00:11:07.340 can to get everyone on
NOTE Confidence: 0.95593476
00:11:07.340 --> 00:11:08.400 that same page.
NOTE Confidence: 0.9278771
00:11:09.820 --> 00:11:10.800 Follow the instructions.
NOTE Confidence: 0.99419916
00:11:12.595 --> 00:11:13.955 Really try to be explanatory.
NOTE Confidence: 0.99419916
00:11:13.955 --> 00:11:15.154 If you have questions, we're
NOTE Confidence: 0.99419916
00:11:15.154 --> 00:11:16.755 always happy to chat about
NOTE Confidence: 0.99419916
00:11:16.755 --> 00:11:17.255 them.
NOTE Confidence: 0.97766197

00:11:18.035 --> 00:11:19.315 I always encourage people to
NOTE Confidence: 0.97766197

00:11:19.315 --> 00:11:21.075 update your CV regularly. You
NOTE Confidence: 0.97766197

00:11:21.075 --> 00:11:23.395 know, there's never a time
NOTE Confidence: 0.97766197

00:11:23.395 --> 00:11:24.595 later where you're gonna remember
NOTE Confidence: 0.97766197

00:11:24.595 --> 00:11:25.795 things better than when you
NOTE Confidence: 0.97766197

00:11:25.795 --> 00:11:27.170 do them. And if you
NOTE Confidence: 0.97766197

00:11:27.170 --> 00:11:28.529 can kinda keep track and
NOTE Confidence: 0.97766197

00:11:28.529 --> 00:11:29.730 every so often as you're
NOTE Confidence: 0.97766197

00:11:29.730 --> 00:11:30.230 doing
NOTE Confidence: 0.98793465

00:11:30.690 --> 00:11:31.890 things, put them as entries
NOTE Confidence: 0.98793465

00:11:31.890 --> 00:11:32.929 on your CV. I think
NOTE Confidence: 0.98793465

00:11:32.929 --> 00:11:34.130 it's the best way to
NOTE Confidence: 0.98793465

00:11:34.130 --> 00:11:35.570 really capture that while you're
NOTE Confidence: 0.98793465

00:11:35.570 --> 00:11:36.529 thinking about it. You can
NOTE Confidence: 0.98793465

00:11:36.529 --> 00:11:37.890 always edit it later, but
NOTE Confidence: 0.98793465

00:11:37.890 --> 00:11:39.730 to get that information in

NOTE Confidence: 0.98793465

00:11:39.730 --> 00:11:40.230 there.

NOTE Confidence: 0.9437549

00:11:40.775 --> 00:11:42.235 Be succinct when possible.

NOTE Confidence: 0.97838646

00:11:43.255 --> 00:11:45.175 Seek the external opportunities. Think

NOTE Confidence: 0.97838646

00:11:45.175 --> 00:11:46.375 about these things ahead of

NOTE Confidence: 0.97838646

00:11:46.375 --> 00:11:47.595 time, grants,

NOTE Confidence: 0.946459

00:11:48.054 --> 00:11:50.635 talks, honors, service professional organizations,

NOTE Confidence: 0.946459

00:11:50.695 --> 00:11:51.995 those things that we mentioned.

NOTE Confidence: 0.9921477

00:11:53.929 --> 00:11:55.290 Things not to do, make

NOTE Confidence: 0.9921477

00:11:55.290 --> 00:11:57.850 sure it's accurately representing what

NOTE Confidence: 0.9921477

00:11:57.850 --> 00:11:58.509 you did.

NOTE Confidence: 0.98409015

00:12:00.089 --> 00:12:01.769 As I mentioned, the talks

NOTE Confidence: 0.98409015

00:12:01.769 --> 00:12:03.230 given here at Yale,

NOTE Confidence: 0.97625315

00:12:03.850 --> 00:12:04.970 are are not what the

NOTE Confidence: 0.97625315

00:12:04.970 --> 00:12:06.170 focus is supposed to be.

NOTE Confidence: 0.97625315

00:12:06.170 --> 00:12:07.050 Those are gonna be for

NOTE Confidence: 0.97625315

00:12:07.050 --> 00:12:07.949 CV two.
NOTE Confidence: 0.9791127

00:12:09.625 --> 00:12:10.665 Make sure you kind of
NOTE Confidence: 0.9791127

00:12:10.665 --> 00:12:11.705 get things in the right
NOTE Confidence: 0.9791127

00:12:11.705 --> 00:12:12.205 section,
NOTE Confidence: 0.95528865

00:12:12.585 --> 00:12:14.025 both in terms of,
NOTE Confidence: 0.98063606

00:12:14.745 --> 00:12:15.885 talks, papers.
NOTE Confidence: 0.94774514

00:12:17.465 --> 00:12:18.585 Not too often we're seeing
NOTE Confidence: 0.94774514

00:12:18.585 --> 00:12:19.545 things and reviewing things and
NOTE Confidence: 0.94774514

00:12:19.545 --> 00:12:20.345 people are saying, you know,
NOTE Confidence: 0.94774514

00:12:20.345 --> 00:12:21.145 who are looking at them
NOTE Confidence: 0.94774514

00:12:21.145 --> 00:12:21.865 or saying, well, you know,
NOTE Confidence: 0.94774514

00:12:21.865 --> 00:12:22.745 I'm not really sure they're
NOTE Confidence: 0.94774514

00:12:22.745 --> 00:12:24.184 categorized correctly. Put some thought
NOTE Confidence: 0.94774514

00:12:24.184 --> 00:12:24.750 into that.
NOTE Confidence: 0.9357774

00:12:25.950 --> 00:12:26.990 And kind of just the
NOTE Confidence: 0.9357774

00:12:26.990 --> 00:12:28.910 general statement of don't let

NOTE Confidence: 0.9357774

00:12:28.910 --> 00:12:30.910 poor documentation preparation say something

NOTE Confidence: 0.9357774

00:12:30.910 --> 00:12:32.110 about you. You know? Put

NOTE Confidence: 0.9357774

00:12:32.110 --> 00:12:33.650 put that effort into this.

NOTE Confidence: 0.9357774

00:12:33.790 --> 00:12:35.309 You know, sometimes people work

NOTE Confidence: 0.9357774

00:12:35.309 --> 00:12:35.809 with,

NOTE Confidence: 0.98261696

00:12:36.429 --> 00:12:37.815 different folks who,

NOTE Confidence: 0.9676132

00:12:38.355 --> 00:12:39.715 they're working with to help

NOTE Confidence: 0.9676132

00:12:39.715 --> 00:12:41.475 in preparing them, and that's

NOTE Confidence: 0.9676132

00:12:41.475 --> 00:12:42.435 that's fine. But in the

NOTE Confidence: 0.9676132

00:12:42.435 --> 00:12:43.635 end of the day, as

NOTE Confidence: 0.9676132

00:12:43.635 --> 00:12:45.495 faculty, this is what's representing

NOTE Confidence: 0.9676132

00:12:45.555 --> 00:12:46.915 you, and I really encourage

NOTE Confidence: 0.9676132

00:12:46.915 --> 00:12:48.275 you to go through it

NOTE Confidence: 0.9676132

00:12:48.275 --> 00:12:48.775 carefully.

NOTE Confidence: 0.9782351

00:12:49.490 --> 00:12:50.370 If you're not doing it

NOTE Confidence: 0.9782351

00:12:50.370 --> 00:12:51.490 yourself, if you're doing yourself
NOTE Confidence: 0.9782351

00:12:51.490 --> 00:12:52.610 great, but, really, you know,
NOTE Confidence: 0.9782351

00:12:52.610 --> 00:12:53.250 at the end of the
NOTE Confidence: 0.9782351

00:12:53.250 --> 00:12:54.690 day, make sure you've done
NOTE Confidence: 0.9782351

00:12:54.690 --> 00:12:55.190 that.
NOTE Confidence: 0.9347906

00:12:57.570 --> 00:12:59.750 Common CV correction, the order,
NOTE Confidence: 0.9240906

00:13:01.385 --> 00:13:02.765 being in chronological order,
NOTE Confidence: 0.96910614

00:13:03.385 --> 00:13:05.545 redundancy between different sections. Keep
NOTE Confidence: 0.96910614

00:13:05.545 --> 00:13:06.904 that in mind. Avoid that.
NOTE Confidence: 0.96910614

00:13:06.904 --> 00:13:08.505 Something like a grant. Yes.
NOTE Confidence: 0.96910614

00:13:08.505 --> 00:13:10.745 It's it's honorific, but not
NOTE Confidence: 0.96910614

00:13:10.745 --> 00:13:11.625 both in the grants and
NOTE Confidence: 0.96910614

00:13:11.625 --> 00:13:12.684 the honor section.
NOTE Confidence: 0.9858267

00:13:13.464 --> 00:13:14.925 Grant information missing.
NOTE Confidence: 0.9591998

00:13:15.540 --> 00:13:16.040 Publication,
NOTE Confidence: 0.93734735

00:13:16.980 --> 00:13:18.120 the style inconsistencies.

NOTE Confidence: 0.90245616
00:13:20.019 --> 00:13:21.860 The style is specifically not
NOTE Confidence: 0.90245616
00:13:21.860 --> 00:13:23.140 meant for et al.
NOTE Confidence: 0.99404377
00:13:24.179 --> 00:13:25.459 It's helpful to know where
NOTE Confidence: 0.99404377
00:13:25.459 --> 00:13:26.260 you are and what the
NOTE Confidence: 0.99404377
00:13:26.260 --> 00:13:27.380 authors are. Even if it's
NOTE Confidence: 0.99404377
00:13:27.380 --> 00:13:28.820 a long list, include the
NOTE Confidence: 0.99404377
00:13:28.820 --> 00:13:29.720 list of authors.
NOTE Confidence: 0.9584952
00:13:30.225 --> 00:13:31.735 We had one recently where
NOTE Confidence: 0.9584952
00:13:31.735 --> 00:13:33.547 people used somebody used et
NOTE Confidence: 0.9584952
00:13:33.547 --> 00:13:35.057 al, and they included themselves
NOTE Confidence: 0.9584952
00:13:35.057 --> 00:13:36.568 in the et al because
NOTE Confidence: 0.9584952
00:13:36.568 --> 00:13:38.078 they only put the first
NOTE Confidence: 0.9584952
00:13:38.078 --> 00:13:39.588 few and it didn't include
NOTE Confidence: 0.9584952
00:13:39.588 --> 00:13:41.099 theirs. Look them up. They're
NOTE Confidence: 0.9584952
00:13:41.099 --> 00:13:42.609 certainly there, but helpful. You
NOTE Confidence: 0.9584952

00:13:42.609 --> 00:13:44.119 know, you wanna have the
NOTE Confidence: 0.9584952

00:13:44.119 --> 00:13:46.030 the list there. Think about
NOTE Confidence: 0.9584952

00:13:46.030 --> 00:13:47.309 what original research is. You
NOTE Confidence: 0.9584952

00:13:47.309 --> 00:13:48.270 know, again, thinking about the
NOTE Confidence: 0.9584952

00:13:48.270 --> 00:13:49.170 different categories.
NOTE Confidence: 0.98892486

00:13:51.309 --> 00:13:52.110 One thing I'll give a
NOTE Confidence: 0.98892486

00:13:52.110 --> 00:13:52.830 plug for,
NOTE Confidence: 0.9992919

00:13:53.390 --> 00:13:54.750 some folks find this more
NOTE Confidence: 0.9992919

00:13:54.750 --> 00:13:55.410 or less
NOTE Confidence: 0.968482

00:13:55.790 --> 00:13:57.230 useful in terms of things.
NOTE Confidence: 0.968482

00:13:57.230 --> 00:13:58.485 I think it's a a
NOTE Confidence: 0.968482

00:13:58.485 --> 00:13:58.985 powerful
NOTE Confidence: 0.84895515

00:13:59.605 --> 00:14:01.464 tool, is CD builder.
NOTE Confidence: 0.9980111

00:14:02.085 --> 00:14:03.205 So for any of you
NOTE Confidence: 0.9980111

00:14:03.205 --> 00:14:04.665 who have been on Beatrix,
NOTE Confidence: 0.9980111

00:14:04.725 --> 00:14:05.925 which is the platform that

NOTE Confidence: 0.9980111
00:14:05.925 --> 00:14:06.964 we use to put the
NOTE Confidence: 0.9980111
00:14:06.964 --> 00:14:07.464 information
NOTE Confidence: 0.9904041
00:14:08.325 --> 00:14:08.825 into,
NOTE Confidence: 0.96686417
00:14:09.605 --> 00:14:11.605 our profiles that that show
NOTE Confidence: 0.96686417
00:14:11.605 --> 00:14:12.745 to the world beyond,
NOTE Confidence: 0.99959785
00:14:13.280 --> 00:14:14.400 If you go into it
NOTE Confidence: 0.99959785
00:14:14.640 --> 00:14:15.780 so I just have
NOTE Confidence: 0.9975411
00:14:16.480 --> 00:14:17.679 my page here. If you
NOTE Confidence: 0.9975411
00:14:17.679 --> 00:14:18.900 went down to the bottom
NOTE Confidence: 0.97061634
00:14:19.440 --> 00:14:21.220 and you click edit profile,
NOTE Confidence: 0.8862418
00:14:22.480 --> 00:14:23.440 it'll take you to this
NOTE Confidence: 0.8862418
00:14:23.440 --> 00:14:24.960 screen. Or down at the
NOTE Confidence: 0.8862418
00:14:24.960 --> 00:14:26.000 edge, it kinda lists the
NOTE Confidence: 0.8862418
00:14:26.000 --> 00:14:27.280 different sections. At the bottom,
NOTE Confidence: 0.8862418
00:14:27.280 --> 00:14:28.805 it says CP builder. You
NOTE Confidence: 0.8862418

00:14:28.805 --> 00:14:30.345 want CP one builder.
NOTE Confidence: 0.96300054

00:14:30.725 --> 00:14:32.005 You click on this, and
NOTE Confidence: 0.96300054

00:14:32.005 --> 00:14:33.464 it will, by section,
NOTE Confidence: 0.9852433

00:14:34.324 --> 00:14:35.785 walk you through the information
NOTE Confidence: 0.9852433

00:14:36.084 --> 00:14:36.665 to do.
NOTE Confidence: 0.97213095

00:14:38.324 --> 00:14:39.925 Simple following the the steps
NOTE Confidence: 0.97213095

00:14:39.925 --> 00:14:41.685 on it. In general, it's
NOTE Confidence: 0.97213095

00:14:41.685 --> 00:14:42.904 a great way to categorize
NOTE Confidence: 0.9895936

00:14:43.480 --> 00:14:45.020 information. And the added bonus
NOTE Confidence: 0.9895936

00:14:45.240 --> 00:14:46.280 is that as you put
NOTE Confidence: 0.9895936

00:14:46.280 --> 00:14:48.200 that information in, it gets
NOTE Confidence: 0.9895936

00:14:48.200 --> 00:14:50.460 added to your publicly visible
NOTE Confidence: 0.99288434

00:14:51.000 --> 00:14:52.920 profile that those looking at
NOTE Confidence: 0.99288434

00:14:52.920 --> 00:14:54.200 the university and looking you
NOTE Confidence: 0.99288434

00:14:54.200 --> 00:14:55.240 up are gonna see. And
NOTE Confidence: 0.99288434

00:14:55.240 --> 00:14:56.040 if you type in any

NOTE Confidence: 0.99288434
00:14:56.040 --> 00:14:57.020 one of our names,
NOTE Confidence: 0.99556804
00:14:57.404 --> 00:14:58.605 Yale, this is gonna be
NOTE Confidence: 0.99556804
00:14:58.605 --> 00:14:59.884 the first website they find.
NOTE Confidence: 0.99556804
00:14:59.884 --> 00:15:00.925 It's a great way to
NOTE Confidence: 0.99556804
00:15:00.925 --> 00:15:01.904 show that information.
NOTE Confidence: 0.9914705
00:15:02.524 --> 00:15:04.045 The other advantage, as I
NOTE Confidence: 0.9914705
00:15:04.045 --> 00:15:05.165 mentioned, for all the things
NOTE Confidence: 0.9914705
00:15:05.165 --> 00:15:06.125 where things come in in
NOTE Confidence: 0.9914705
00:15:06.125 --> 00:15:08.365 different formats, this forces the
NOTE Confidence: 0.9914705
00:15:08.365 --> 00:15:09.105 right format.
NOTE Confidence: 0.89770734
00:15:11.070 --> 00:15:11.570 Advantages,
NOTE Confidence: 0.99506277
00:15:12.030 --> 00:15:13.870 things like publications are drawn
NOTE Confidence: 0.99506277
00:15:13.870 --> 00:15:14.370 in,
NOTE Confidence: 0.9927685
00:15:14.910 --> 00:15:15.890 through dimensions,
NOTE Confidence: 0.9993809
00:15:16.510 --> 00:15:17.250 which is
NOTE Confidence: 0.99517035

00:15:17.630 --> 00:15:18.990 essentially a search engine to
NOTE Confidence: 0.99517035

00:15:18.990 --> 00:15:20.430 get the papers in. I
NOTE Confidence: 0.99517035

00:15:20.430 --> 00:15:21.250 will say
NOTE Confidence: 0.96793085

00:15:21.950 --> 00:15:23.890 that enough faculty weren't responding
NOTE Confidence: 0.96793085

00:15:24.030 --> 00:15:25.365 to saying what kind of
NOTE Confidence: 0.96793085

00:15:25.605 --> 00:15:26.725 what kind of paper was
NOTE Confidence: 0.96793085

00:15:26.725 --> 00:15:28.085 it that they just start
NOTE Confidence: 0.96793085

00:15:28.085 --> 00:15:29.445 auto importing them and they
NOTE Confidence: 0.96793085

00:15:29.445 --> 00:15:30.725 come in as peer reviewed
NOTE Confidence: 0.96793085

00:15:30.725 --> 00:15:32.165 publications. So if you're using
NOTE Confidence: 0.96793085

00:15:32.165 --> 00:15:33.605 this for your publications, make
NOTE Confidence: 0.96793085

00:15:33.605 --> 00:15:35.205 sure you do checks to
NOTE Confidence: 0.96793085

00:15:35.205 --> 00:15:36.565 make sure that things are
NOTE Confidence: 0.96793085

00:15:36.565 --> 00:15:37.845 adjusted. It's very easy to
NOTE Confidence: 0.96793085

00:15:37.845 --> 00:15:39.685 adjust which category it falls
NOTE Confidence: 0.96793085

00:15:39.685 --> 00:15:40.080 in.

NOTE Confidence: 0.9862997

00:15:40.880 --> 00:15:41.920 And the section that is

NOTE Confidence: 0.9862997

00:15:41.920 --> 00:15:43.280 the greatest amount of work

NOTE Confidence: 0.9862997

00:15:43.280 --> 00:15:44.800 in doing this is your

NOTE Confidence: 0.9862997

00:15:44.800 --> 00:15:45.300 presentations,

NOTE Confidence: 0.9568472

00:15:45.760 --> 00:15:47.280 especially things like peer reviewed

NOTE Confidence: 0.9568472

00:15:47.280 --> 00:15:48.480 type presentations where there are

NOTE Confidence: 0.9568472

00:15:48.480 --> 00:15:49.520 a number of authors. I

NOTE Confidence: 0.9568472

00:15:49.520 --> 00:15:51.940 will say that that is

NOTE Confidence: 0.9568472

00:15:52.080 --> 00:15:52.820 the least

NOTE Confidence: 0.9573841

00:15:53.145 --> 00:15:54.685 automated of the processes.

NOTE Confidence: 0.9624036

00:15:55.145 --> 00:15:56.425 But especially if you start

NOTE Confidence: 0.9624036

00:15:56.425 --> 00:15:57.545 this early in your career,

NOTE Confidence: 0.9624036

00:15:57.545 --> 00:15:58.585 it kinda helps in terms

NOTE Confidence: 0.9624036

00:15:58.585 --> 00:15:59.385 of getting those in. And

NOTE Confidence: 0.9624036

00:15:59.385 --> 00:16:00.845 as I say, the secondary

NOTE Confidence: 0.9624036

00:16:00.905 --> 00:16:02.505 benefit of having an active
NOTE Confidence: 0.9624036

00:16:02.505 --> 00:16:04.025 list on your profile for
NOTE Confidence: 0.9624036

00:16:04.025 --> 00:16:05.225 what it is seen. So
NOTE Confidence: 0.9624036

00:16:05.225 --> 00:16:07.305 encourage you to look at
NOTE Confidence: 0.9624036

00:16:07.305 --> 00:16:08.685 and work with that.
NOTE Confidence: 0.9881965

00:16:11.520 --> 00:16:12.960 As part of that process
NOTE Confidence: 0.9881965

00:16:12.960 --> 00:16:14.180 for CV builder,
NOTE Confidence: 0.9644538

00:16:14.560 --> 00:16:16.720 you can select what type
NOTE Confidence: 0.9644538

00:16:16.720 --> 00:16:18.320 of CV it is. And
NOTE Confidence: 0.9644538

00:16:18.320 --> 00:16:20.160 it includes things such as
NOTE Confidence: 0.9644538

00:16:20.160 --> 00:16:21.440 if it's being used for
NOTE Confidence: 0.9644538

00:16:21.440 --> 00:16:23.555 the appointments and promotions process,
NOTE Confidence: 0.9644538

00:16:23.555 --> 00:16:24.755 it will include kind of
NOTE Confidence: 0.9644538

00:16:24.755 --> 00:16:26.675 this header information of what
NOTE Confidence: 0.9644538

00:16:26.675 --> 00:16:28.195 you're being proposed for the
NOTE Confidence: 0.9644538

00:16:28.195 --> 00:16:29.635 term in school. And if

NOTE Confidence: 0.9644538

00:16:29.635 --> 00:16:30.995 you pick other forms of

NOTE Confidence: 0.9644538

00:16:30.995 --> 00:16:31.495 CV,

NOTE Confidence: 0.979202

00:16:32.115 --> 00:16:32.995 it won't be there and

NOTE Confidence: 0.979202

00:16:32.995 --> 00:16:33.875 it'll look more like a

NOTE Confidence: 0.979202

00:16:33.875 --> 00:16:34.995 standard CV that you can

NOTE Confidence: 0.979202

00:16:34.995 --> 00:16:36.675 use for other purposes. So

NOTE Confidence: 0.979202

00:16:36.675 --> 00:16:37.830 it will help kind of

NOTE Confidence: 0.979202

00:16:37.990 --> 00:16:39.430 set it up for whatever

NOTE Confidence: 0.979202

00:16:39.430 --> 00:16:40.870 the use is related to

NOTE Confidence: 0.979202

00:16:40.870 --> 00:16:41.370 that.

NOTE Confidence: 0.9989904

00:16:43.990 --> 00:16:44.490 Finally,

NOTE Confidence: 0.9660784

00:16:46.310 --> 00:16:47.990 we sporadically got in the

NOTE Confidence: 0.9660784

00:16:47.990 --> 00:16:49.590 past for the appointments and

NOTE Confidence: 0.9660784

00:16:49.590 --> 00:16:52.065 promotion process addendum. Sometimes the

NOTE Confidence: 0.9660784

00:16:52.145 --> 00:16:53.745 appointments and promotion process takes

NOTE Confidence: 0.9660784

00:16:53.745 --> 00:16:54.785 a while. We kinda say
NOTE Confidence: 0.9660784

00:16:54.785 --> 00:16:56.625 that from initial conception to
NOTE Confidence: 0.9660784

00:16:56.625 --> 00:16:57.425 end. It can be a
NOTE Confidence: 0.9660784

00:16:57.425 --> 00:16:58.305 year to year and a
NOTE Confidence: 0.9660784

00:16:58.305 --> 00:16:59.685 half of that journey.
NOTE Confidence: 0.99647653

00:17:00.065 --> 00:17:01.525 And there may be substantive
NOTE Confidence: 0.99647653

00:17:01.665 --> 00:17:03.425 things that you wanna add
NOTE Confidence: 0.99647653

00:17:03.425 --> 00:17:04.770 as things are getting closer.
NOTE Confidence: 0.96248

00:17:05.170 --> 00:17:06.690 And so now on the
NOTE Confidence: 0.96248

00:17:06.690 --> 00:17:07.490 website, when you look at
NOTE Confidence: 0.96248

00:17:07.490 --> 00:17:08.530 it, we really just spell
NOTE Confidence: 0.96248

00:17:08.530 --> 00:17:09.570 out the mechanics of it,
NOTE Confidence: 0.96248

00:17:09.570 --> 00:17:10.850 and we invite anyone who
NOTE Confidence: 0.96248

00:17:10.850 --> 00:17:12.050 wants to to add a
NOTE Confidence: 0.96248

00:17:12.050 --> 00:17:13.030 CB addendum,
NOTE Confidence: 0.9985343

00:17:13.570 --> 00:17:15.109 of things that have happened

NOTE Confidence: 0.9996235
00:17:15.490 --> 00:17:16.390 along the way
NOTE Confidence: 0.9936017
00:17:16.690 --> 00:17:17.990 to help in representing
NOTE Confidence: 0.9995694
00:17:18.290 --> 00:17:19.270 who you are.
NOTE Confidence: 0.9987149
00:17:20.445 --> 00:17:22.365 Of note, this is really
NOTE Confidence: 0.9987149
00:17:22.365 --> 00:17:22.865 for
NOTE Confidence: 0.8710252
00:17:23.244 --> 00:17:25.085 significant changes. You know, if
NOTE Confidence: 0.8710252
00:17:25.085 --> 00:17:26.365 something is just, you know,
NOTE Confidence: 0.8710252
00:17:26.365 --> 00:17:27.565 say, just but has moved
NOTE Confidence: 0.8710252
00:17:27.565 --> 00:17:28.065 from
NOTE Confidence: 0.75749874
00:17:28.445 --> 00:17:29.664 impressed to having
NOTE Confidence: 0.96723056
00:17:30.445 --> 00:17:32.445 a DOI or there's been
NOTE Confidence: 0.96723056
00:17:32.445 --> 00:17:34.144 a little incremental something,
NOTE Confidence: 0.98790145
00:17:35.000 --> 00:17:36.200 I wouldn't worry about that.
NOTE Confidence: 0.98790145
00:17:36.200 --> 00:17:37.480 That's not really what that's
NOTE Confidence: 0.98790145
00:17:37.480 --> 00:17:38.760 intended for. It's really to
NOTE Confidence: 0.98790145

00:17:38.760 --> 00:17:40.700 add that the additional publications

NOTE Confidence: 0.98790145

00:17:40.840 --> 00:17:42.520 happened, that a grant came

NOTE Confidence: 0.98790145

00:17:42.520 --> 00:17:44.280 through, that you joined a

NOTE Confidence: 0.98790145

00:17:44.280 --> 00:17:44.780 society,

NOTE Confidence: 0.88110423

00:17:45.320 --> 00:17:46.540 joined a committee.

NOTE Confidence: 0.9859742

00:17:47.080 --> 00:17:47.960 Those are the types of

NOTE Confidence: 0.9859742

00:17:47.960 --> 00:17:49.744 things that are there. And

NOTE Confidence: 0.9859742

00:17:49.965 --> 00:17:51.405 there's information on just how

NOTE Confidence: 0.9859742

00:17:51.405 --> 00:17:53.085 to format that, labeling it

NOTE Confidence: 0.9859742

00:17:53.085 --> 00:17:54.625 as CV addendum,

NOTE Confidence: 0.97147554

00:17:55.005 --> 00:17:56.445 and then kind of walks

NOTE Confidence: 0.97147554

00:17:56.445 --> 00:17:58.205 through them, kinda kinda explains

NOTE Confidence: 0.97147554

00:17:58.205 --> 00:17:59.085 how just to use the

NOTE Confidence: 0.97147554

00:17:59.085 --> 00:18:00.605 same sections and only list

NOTE Confidence: 0.97147554

00:18:00.605 --> 00:18:02.205 the sections that have new

NOTE Confidence: 0.97147554

00:18:02.205 --> 00:18:03.825 things that are being added.

NOTE Confidence: 0.9964177

00:18:07.290 --> 00:18:08.830 So that's really the information.

NOTE Confidence: 0.92907923

00:18:09.530 --> 00:18:10.810 That's what c v one

NOTE Confidence: 0.92907923

00:18:10.810 --> 00:18:11.310 is.
